This document provides the Federal Emergency Management Agency's determination regarding a request for a Letter of Map Amendment for the property described above. Using the information submitted and the effective National Flood Insurance Program (NFIP) map, we determined the structure on the property is not located in the SFHA, an area inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood). This document amends the effective NFIP map to remove the structure from the SFHA; therefore, the federal mandatory flood insurance requirement does not apply. However, the lender has the option to continue the flood insurance requirement to protect its financial risk on the loan. A Preferred Risk Policy (PRP) is available for buildings located outside the SFHA. Information about the PRP and how one can apply is enclosed.

This determination is based on the flood data presently available. The enclosed documents provide additional information regarding this determination. If you have any questions about this document, please contact the FEMA Map Assistance Center toll free at 1-877-336-2627 (FEMA MAP) or by letter addressed to the FEMA LOMA DEPOT, 3601 Eisenhower Avenue, Suite 600, Alexandria, VA 22304-6439.

5. ZONE A

The NFIP map affecting this property depicts the SFHA (Zone A) determined using the flood data available, but without performing a detailed engineering analysis or establishing base flood elevations. Determinations based on these flood data are approximate and subject to change.

8. PORTIONS OF THE PROPERTY REMAIN IN THE SFHA

The Determination Document has removed the subject of the determination from the Special Flood Hazard Area (SFHA). However, portions of the property may remain in the SFHA. Therefore, any future construction or substantial improvement on the property remains subject to Federal, State, and local regulations for floodplain management.

Dear Mrs. Tewel:

This is in reference to a request that the Federal Emergency Management Agency (FEMA) determine if property is located within an identified Special Flood Hazard Area, the area that would be inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood), on the effective National Flood Insurance Program (NFIP) map. Using the information submitted and the effective NFIP map, our determination is shown on the attached Letter of Map Amendment (LOMA) Determination Document. This determination document provides additional information regarding the effective NFIP map, the legal description of the property, and our determination.

Subject: Letters of Map Change

Dear Community Official:

On behalf of the Federal Emergency Management Agency (FEMA), we are enclosing a copy of recent Letters of Map Amendment (LOMAs) and/or Letters of Map Revision (LOMRs) issued to amend or revise the National Flood Insurance Program (NFIP) map for your community.

As you know, the repository is a local resource for information about the risks of flooding in your community. A FEMA priority is to ensure that changes to the flood-risk information, such as those resulting from the issuance of a map amendment or revision, are sent to the repository for the benefit of the public. Please note that NFIP regulations require that the repository attach the copy of the LOMA and/or LOMR to the appropriate NFIP map on file.

FEMA appreciates your cooperation in maintaining this valuable community resource. If you have any questions, or if the address of the repository for your community has changed, please contact me at the telephone number provided above.

Sincerely,
